JAMES L. THOMPSON, Treasurer.

P.S. For Receiving goods.

FRIDAY, JULY 5, 1850

Weymouth Courant.

The annual commencement of the
Assay of Pounds and avoirdupois
weights, held at Weymouth on the
2d inst. was attended by a large
concourse of people. The assayer
was in charge of the proceedings,
and after a short address, the
weights were placed on the table,
and the public were invited to
examine them. The weights were
found to be in perfect order, and
the certificates of the assayer were
unanimously received.

The weather was fine, and the
public crowded into the town to
see the process. There was a
large crowd at the Assay office,
and many of the spectators were
in the streets, looking at the
weights. The assayer was in the
office, and was examining the
weights, when a large crowd of
people gathered around him, and
begged him to give them a
description of the process. The
assayer was pleased to oblige,
and gave a very full account of
the process. The weights were
then placed on the table, and the
assayer began to examine them.
